International Charter School of La Mirada

The Consulate General of Switzerland has recently been informed about the creation of the new International Charter School in La Mirada, which will offer a dual language education (English and German) based on the International Baccalaureate Program

German is, beside French and Italian, one of the three official languages in Switzerland. Rhaeto-Romanic, the fourth language, has the status of a national language.

Swiss Authorities support all actions and efforts in promoting and maintaining the four national languages, in Switzerland as well as abroad. Based on that, this Consulate General embraces the idea of establishing a new International Charter School in La Mirada and is looking forward to the early realization of this important and ambitious project.

Sincerely yours,

For the Consul General of Switzerland

Roland Rietmann
Deputy Consul General
