Got Soccer is a simple tool that uses dates and “events” to create actual games.

You will need to first go in and select Referee Assignors: you will need to Cancel and then Delete all assignors, other than Michelle Miller

Next, you need to go and sign up for our Spring season.

You will select Upcoming Events and then select Search Events. Don’t worry about the dates. In the Event Name box, type in NMCSL Fall 2011 and hit Go. This will populate the “event” for our Fall Season. The most important part is next: select Register for Event... and presto! You’re in.

Michelle will be able to see your name.

Last important piece of the puzzle: click on Home and you’ll see the calendar with the “events” you have signed up for. Next, click on Availability.

This is where you put in your blackout dates and times. If you know that you are not available for any specific day, then select Add Blackout.

Start time is 8:00 a.m.

End time is 8:00 p.m.
