**Please R.S.V.P. to: [Melanie at \(850\) 855-0477](tel:855-855-0477)**

**[Frequently asked Questions](#)**

## **Q: What is a Gold Party?**

A: It is a fun time for friends to gather together and get some extra cash. Bring your broken or tangled necklaces, bracelets, unwanted or unused gold rings, mismatched earrings, and out of style or just plain ugly old gold jewelry to the party. Gold Party Group technicians will evaluate each guest's jewelry and give them cash to buy the gold jewelry. With gold near an all time high most people cannot believe how much their old jewelry is worth.

## **Q: How does Gold Party Group figure out how much my gold is worth?**

A: The value of your gold is based on many factors. The first is the price of gold on the day of purchase. The second factor is the purity. 24 kt gold pieces are worth more than 14 kt. Once we have the pieces separated by their purity, we weigh each purity level and determine a total value for all your gold.

## **Q: How and when will I be paid?**

A: All guests and the party host are paid immediately in cash. If the party becomes much larger than expected, we may reserve the right to pay the host by corporate check.

## **Q: What do you buy?**

A: We buy anything that is yellow or white gold.

## **Q: What if I am not sure if my gold is real?**

A: Send it all. You never know what might be real. We will test the gold if it is not marked clearly. One way you can sort out some of the costume jewelry is to run a magnet over it. Gold will not be attracted to the magnet but other metals will.
