Memory Book Chairman: A Booster Board representative (Lisa Thompson) works with the team memory book representatives on the collection of photographs, design, formatting, and final team products to get it ready for print.

Team Memory Book Representative: Works with Booster Board to put together memory book. Representative collects photos in JPEG digital format from professional photographer, parents, and players, and organizes them into a team Power Point document (directions and format to be provided in separate document). It is a good idea to have people take pictures early in the pre-season when everyone is guaranteed some play time. The goal is to get photos of all girls on the team. Every girl is to be represented in the memory book.
