### **Georgia State Senator Unterman Endorses Herman Cain for President**

Georgia State Senator Renee Unterman (R-Gwinnett) today enthusiastically announced her endorsement of Herman Cain for president.

“This country needs a man of Herman Cain’s solid character and problem solving capabilities in the White House. This is why I am endorsing Mr. Cain for President of the United States.” said Senator Unterman.

Senator Unterman continued, “I have known Herman Cain for years, and I cannot think of a better person to be our next Commander-in-Chief. He is a man of strong character and integrity.

Our country needs someone with bold ideas and who has the experience of producing positive results, as Mr. Cain has in the private sector. He is a leader with a proven record of taking troubled organizations and turning them around. At this pivotal point in American history, we need a tested CEO for president.”

“As the sole female Republican in the Georgia Senate, I am honored to have Senator Unterman’s endorsement and thank her for her distinguished leadership in Georgia,” said Herman Cain.
