You do everything you can for your family's happiness and health. There's one more thing you can do to preserve their safety.

Keeping All Information Together In Emergencies

Software that creates your family emergency plan including records, photos, and documents. Have them available from anywhere at anytime.

You will have the peace of mind of knowing that your information is available to you and your loved ones in an emergency or disaster even if the family's record keeper is not home or you cannot get back into your house.

And you will have access to the same information when you are just "on the go."

Emergencies, Disasters, Threats

Come in So Many Ways:
Weather, Sudden Illness,
Theft, Household Damage,
Terrorism

Who do you contact?

What do you do?

How do you do it?

How to prepare?

Where is the important
information?

Our families trust, expect, and too often assume that someone has prepared. Get started today.

Have you ever been frustrated or worried when you couldn't find information you needed? What if you were in an unexpected crisis? What if you couldn't get back home for it? Every household needs an easy, reliable way to access emergency procedures, vital records and contact information.

You Need a Continuity Plan

An emergency preparedness plan plus all personal, medical and financial information located and organized in one safe accessible place

You will refer to it day-to-day too

*Developed by a Business Continuity and Disaster Recovery Planning Software Expert who during a 15 year career, trained, serviced and consulted for many government agencies, organizations and corporations. Ask **KAITIE** software guides you through the steps to create your emergency preparedness and recovery plan, and organizes all your family records in one place.*

What can Ask **KAITIE** do for **you**?

Organize the essential information needed to respond and recover from a disaster or emergency in one accessible place.

Provide access to your information at all times. **You have complete control of your information** with options to save the secure files on CD, DVD or flash drive. Store it in your car or safety deposit box, email it to a relative, keep it in your briefcase.

Allow a **spouse, child or other trusted person** access to emergency, personal, medical and financial information.

Easily update records to guarantee that your current information is available.

Deliver all vital household information in clear, easy to read reports.

Plus use it as a **day-to-day time saving resource**: Medical histories and preferences, financial information and accounts, school records, resumes, loan applications, user ids and passwords, baby sitter instructions...
