Good Morning

I am in need of a private car for Mr. Steve of Princess Cruises and his family who will be debarking the ship early Saturday morning.

We expect to see them approximately 7am. Would it be possible for you to have a driver and car here at that time?

Please advise.

And once again, thank you in advance for all of your help on Saturday. You and your team were wonderful support and provided amazing service.

Thank you in advance,
