Completing PAT Annual Program Report

Annual Program Reports are due July 15 each year.

To complete the Annual Program Report, go to the [Parents as Teachers Web Portal](#).

Enter your PAT ID number (a six digit number assigned to you when you were certified; it is located on your PAT training certificate) and password (unless you have changed your password, the default password is the last four digits of your social security number). If you do not have your login ID or password, there is a link to contact PAT National Center to have your password reset.

On the next screen, click on “Annual Program Report” under Program Implementation. From there you will click on the year you want to complete. Make sure you click save on each page, especially on the last page.

If you have more questions, please contact Sara Jane Blackman at sjblackman@bellsouth.net.
